

Colby T. Ford, Ph.D.

*Computational Biomathematician,
Cloud Architect, & Data Scientist*

Phone: (828) 773-8009
Email: colby.ford@uncc.edu
Location: Charlotte, NC

Website: colbyford.com
LinkedIn: colbyford
Github: colbyford
Research Gate: colby_ford
Google Scholar: Colby T. Ford

Education

The University of North Carolina at Charlotte

- 2018 Doctor of Philosophy in Bioinformatics and Computational Biology
Advisor: Daniel Janies, Ph.D.
Dissertation: An Integrated Phylogeographic Analysis of the Bantu Migration
Wayland H. Cato Doctoral Fellow
- 2015 Master of Science in Data Science and Business Analytics
Advisor: Mirsad Hadžikadić, Ph.D.
- 2014 Bachelor of Arts in Applied Mathematics, Minor in Psychology
Advisor: Mary Kim Harris, Ed.D.
Coffey Scholar, C.L. Robbins Scholar

Academic Positions

The University of North Carolina at Charlotte

Teaching *Cloud Computing for Data Analysis* (DSBA 6190) for the Data Science Initiative Master's program. Received a funding grant from Microsoft to modernize and rebuild the course content on the Azure cloud platform. Performing research in a broad range of fields in the bioinformatics and computational biology space including infectious diseases, epistasis, and human phylogenetics.

| | | |
|----------------------------|---------------------------|--------------------------------------|
| January 2019 - Present | Associate Faculty | School of Data Science |
| January 2019 - Present | Bioinformatics Researcher | Dept. of Bioinformatics and Genomics |
| April 2018 - December 2018 | Postdoctoral Researcher | Dept. of Bioinformatics and Genomics |
| May 2016 - April 2018 | Graduate Assistant | Dept. of Bioinformatics and Genomics |

Northeastern University

Taught a summer session of machine learning to graduate students in the LEVEL analytics program.
May 2015 - August 2015 Guest Lecturer LEVEL

North Carolina New Schools

Responsible for entire technology inventory: ordering, maintenance, management, etc. and maintained school website. Liaison between college & high school technology departments. Taught NCVPS mathematics courses, held additional teaching sessions in math and science and SAT & ACT preparation.

| | | |
|---------------------------|-------------------------------------|------------------------|
| April 2014 - October 2014 | Technology Facilitator | Caldwell Early College |
| April 2014 - October 2014 | Mathematics Instructional Assistant | Caldwell Early College |

Industry Positions

BlueGranite

Developed data platform and AI solutions using the Microsoft Azure cloud with services such as Azure Machine Learning Service, Cognitive Services, and Databricks (Apache Spark). Managed client engagements including requirements gathering, project planning, and budgeting. Hosted many training workshops and gave conference presentations and demonstrations on Microsoft advanced analytics technologies.

November 2018 - Present AI Solution Architect
January 2017 - November 2018 Senior Data Scientist

Lash Group

Developed machine learning experiments and data analysis workflows to aid in client analytics. Created analysis pipelines for the discovery and understanding into patient drug adherence and rare disease drug access. Consulted in company data architecture including master data management and governance for future business strategy to grow value for client accounts.

February 2016 - February 2017 Senior Data Science Lead

Mariner

Consulted in the development of machine learning experiments, including parametric and non-parametric models, statistical predictions, and data mining. Built Azure cloud-based solutions for data collection, processing, and storage using Microsoft Azure Technologies such as Data Science Virtual Machines, Machine Learning Studio, Azure SQL Database, and more. Designed and created interactive visualizations for both dashboarding and reporting using Microsoft Power BI, Tableau Desktop & Tableau Server.

October 2014 - February 2016 Data Scientist

Staples

Managed store operations from labor planning, planograms, and inventory. Supervised store P&L of EasyTech department for technology, warranty, & repair service sales.

April 2011 - June 2014 Operations Supervisor & Tech Sales Supervisor

Caldwell Hospice and Palliative Care

Pioneered the transition from hand-written, paper medical forms to electronic data input and served as a database administrator. Worked closely with HIPAA and Medicare/Medicaid guidelines for data compliance.

August 2008 - December 2011 Medical Records Database Administrator

| May 2020 | UCSD HIV Dynamics Conference | <i>Speaker</i> | Online |
| Jun. 2020 | Spark + AI Summit | <i>Panelist</i> | Online |

Certifications

| | | |
|----------|--|----------------------|
| May 2018 | Databricks Certified Developer - Apache Spark 2.x for Python | Certificate #: 53873 |
| Dec 2019 | CITI Program - Biomedical Researcher (IRB) | Record ID: 34535340 |

Skills

| | |
|---------------------|---|
| Languages: | R • Python • SQL • SAS • Visual Basic |
| Parallel Computing: | Spark • Hadoop • MPI • SNOW |
| Cloud Computing: | Microsoft Azure • Amazon Web Services |
| Visualization: | Tableau • Power BI • Shiny • D3.js |
| Markup/Design: | Markdown • HTML5 • CSS3 • L ^A T _E X |

Funding

| | | | | |
|-----------------------|---------------------|--|------------|---------|
| Nov. 2020 - Oct. 2021 | NIH SBIR | A Predictive Analytics Software Platform to Improve Safety and Outcomes for Individuals with Alzheimer's Diseases and Related Dementias and Assist Their Care-givers | \$449,878 | Pending |
| Nov. 2020 - Oct. 2021 | NIGMS-NOSI | Enhanced Epidemiological Modeling for SARS-CoV-2 and Other Infectious Diseases | \$415,199 | Pending |
| Aug. 2020 - Jan. 2022 | NSF 20-503 | AI Institute: Planning: Novel Machine Learning Explanations in the Evolution of Malaria | \$500,000 | Pending |
| Apr. 2020- May 2020 | Microsoft | COVID-19 Research on Azure | \$35,000 | Funded |
| May 2020 - Dec. 2020 | UNCC SDS Seed Grant | Analytical Modeling of IoMT data to predict onset and progression of Alzheimer's | \$20,000 | Funded |
| Jan. 2019 - May 2019 | Microsoft | Azure Funding for Cloud Computing Course | \$30,000 | Funded |
| Oct. 2014 - Present | Microsoft | Various Business Incentive Funds (BIF), Partner Investment Engine (PIE) Funds, GoFast Funding, and End Customer Investment Funds (ECIF). | >\$400,000 | Funded |
